

Calibration Services

Contact Our Lab Services Department For Your Calibration and Repair Needs

Calibration Service

- We can calibrate most general-purpose electronic test equipment in our state-of-the-art calibration facility.
- We calibrate using written or automated procedures.
- We provide calibration certificates and labels traceable to NIST. Our prices are reasonable and quality is excellent.
- Our calibration system is operated to meet the requirements of the industry standard for calibration lab operation. This document known as ANSI/NCSL Z540-1-1994 or "Z540" for short specifies how to run a proper calibration lab. We are also compliant with many of the requirements of ISO 17025 and ISO 10012. Our technical staff is knowledgeable of old and new equipment.

Repair Services

- We will evaluate your broken or failed test equipment for a fee.
- Our evaluation includes a preliminary function check, looking for an easy fix, and an explanation of the options available for repair and replacement of the bad unit. Easy fixes can save you a lot of money! Loose or oxidized connectors are often at fault on equipment more than ten years old. We use Stabilant 22 to make sure your connectors never fail again.
- If the equipment requires parts, we will try to find them.
- If the equipment is available for replacement, we will quote you.
- If the equipment is simply worn out, we will tell you.
- Obsolete and unsupported equipment repair is often unsuccessful but we will give any unit our best effort and provide you with an honest evaluation and dependable fixes.

Industry Experience

- Telecommunication
- Defense
- Aerospace
- Microelectronics
- Biotechnology
- Medical Devices
- Bioscience & Pharmaceutical
- Life Science & Medical Facilities
- Government
- Automotive
- Food & Process

Areas of Specialization

- Multimeter
- Frequency Counters
- Shunts
- Process Calibrators
- Function Generators
- Signal Generators
- Power Supplies
- Oscilloscopes
- AC/DC Voltmeters
- Pulse Generators
- Network Analyzers
- Spectrum Analyzers

Manufacturers

- Agilent
- Hewlett Packard
- Tektronix
- Fluke
- GenRad
- Numerous others
